Educational Foci

Our educational philosophy is influenced by current best practices and neuroscience research.

We provide cognitive, social-emotional, physical, language and literacy, science and math, social studies, and spiritual educational experiences.

We are a green facility, and engage in numerous nature and outdoor activities, including caring for our garden.

We foster independence, problem solving, critical thinking skills and and personal reflection.

Families

Parents are actively engaged and are partners in their child's educational experiences.

The Pauline Mash School for EarlyChildhood Education is affiliated with the Beth El Congregation, a progressive Conservative synagogue affiliated with the United Synagogue of Conservative Judaism. Our school provides children birth through five years of age a nurturing Jewish environment and innovative educational experiences that stimulate exploration, creativity, and community. We facilitate children's growth as competent, responsible and caring individuals to guide and empower young to become effective, enthusiastic, independent learners by partnering with their families to create a warm, caring and supportive community where everyone is respected and valued.

Jewish values and celebration form the foundation of the school's curriculum. Our program integrates Jewish values into every aspect of the day. Some of the Jewish values that are the foundation of our school are: Kovad-respect, Tzedakah-charity, G'milut Chasadim-acts of loving kindness, Hit'oriroot-wonder. Children celebrate Shabbat every week in class and as a whole school with the rabbi. Through regular exposure children become familiar with the synagogue, our clergy, daily and holiday rituals, and blessings.

We accept all children regardless of color, ethnicity, or religion
